This publication is a product of the Georgia Department of Labor’s Workforce Statistics & Economic Research Division, under the general direction of Mark Watson, Director. Corey Smith, Assistant Director, had primary oversight and responsibility for the research and management of this report with assistance from Lindsey Adams, Michael Clark, Hans Friedrichsen, Erica Smith, and Rebecca Thuns. Others who rendered valuable contributions include Travis Williams and Helen Kim of the Management Information Systems Unit, who were responsible for its production and graphic design, respectively.

Please cite the Workforce Statistics & Economic Research Division of the Georgia Department of Labor when presenting any data found in this publication.
Introduction

The thirteenth edition of Licensed and Certified Occupations in Georgia continues our tradition of providing students, job seekers, counselors, and other interested persons with information about the occupations that require licensing or certification in the state, as well as occupations that offer certifications as an option.

In general, a license grants an individual permission to engage in a given occupation after having obtained the minimum degree of competency necessary to ensure that the public health, safety, and welfare will be reasonably well protected. Certification grants an individual permission to use a specific title after having met predetermined qualifications established by a regulator agency or professional organization. In practice, few people differentiate between the two forms of credentials; but typically, one must meet certain education, experience, and/or competency standards in order to qualify for either credential.

Licensed and Certified Occupations in Georgia captures major occupational titles in a format utilizing the Standard Occupational Classification (SOC) system. Various types of information are listed for each occupation, to include: job description, requirements, licensing or certifying agency, fees, examination information, professional associations, and related occupational titles and codes.

Every cooperative effort has been taken to represent all occupations that require a license or certification (either mandatory or optional) in Georgia. In this publication there may be additional occupations that possibly have been omitted. Therefore, the information presented herein is subject to change. The Georgia Department of Labor makes no guarantees, warranties, or assurances of any kind, express or implied, with respect to such information; including any information on linked sites and including, but not limited to, accuracy of the information or its completeness, timeliness, usefulness, adequacy, continued availability, or ownership.

This workforce product was funded by a grant awarded by the U.S. Department of Labor’s Employment and Training Administration. Construction Managers

Constructions managers plan, direct, coordinate, or budget, usually through subordinate supervisory personnel, activities concerned with the construction and maintenance of structures, facilities, and systems. They participate in the conceptual development of a construction project and oversee its organization, scheduling, and implementation.

National certification is available for construction managers.

Requirements

**Applicant requirements for Certified Professional Constructor (CPC): Level 2**
- Bachelor’s degree in construction from an accredited construction program or equivalent experience or a combination of experience and education
- 8 years of professional construction experience with 2 of those years managing the execution of construction work
- Pass Level I and II exams

**Applicant requirements for Associate Constructor (AC): Level 1**
- Pass Level I exam
- Four years of acceptable education and/or experience

Certifying Agency

**American Institute of Constructors**  
and Constructor Certification Commission  
19 Mantual Road  
Mount Royal, NJ 08001

Farmers and Farm Managers

On a paid basis farmers manage: farms, ranches, agricultural operations, greenhouses, nurseries, timber tracts, cotton gins, packing houses, or other agricultural establishments for employers. Carry out production, financial, and marketing decisions relating to the managed operations following guidelines from the owner. Farmers contract tenant farmers or producers to carry out the day-to-day activities of the managed operation. May supervise planting, cultivating, harvesting, and marketing activities. May prepare cost, production, and other records. Farmers may also perform physical work and operate machinery.

Farmers and farm managers in Georgia must be certified for pesticide application if applying a restricted use pesticide.

Requirements

- Pass a series of exams

Certifying Agency

**Georgia Department of Agriculture**
Agriculture Pesticide Division
19 Martin Luther King, Jr. Drive SW
Room 410
Atlanta, GA 30334
(404) 656-4958
(404) 657-8378 Fax
AgPest@agr.georgia.gov
https://www.agr.georgia.gov/pesticides.aspx
This agency distributes both certifications and licenses for the state of Georgia.

Fees

- **Application:** $90.00, Commercial Application  
  No Fee, Private Application

  NOTE: Both the private and commercial pesticide applicator's licenses are valid for a 5-year period.

- **Testing:** $45.00 Commercial and Private

Examination

- **Repeats:** Commercial license: Twice in any six month period
  Private license: Unlimited

- **Type:** Computerized

- **When:** Several testing dates throughout the year

- **Where:** Commercial license: Georgia Technical Colleges
  Private license: County Extension offices

Human Resources Managers

Human resources managers plan, direct, and coordinate human resource management activities of an organization to maximize the strategic use of human resources and maintain functions such as employee compensation, recruitment, personnel policies, and regulatory compliance.

National certification is available for human resources managers.

Requirements

The Certified Employee Benefit Specialist (CEBS) program offers candidates the opportunity to earn four specialty designations:

- CEBS, Group Benefits Associate (GBA), Retirement Plans Associate (RPA), and Compensation Management Specialist (CMS) requires no formal education, age, or experience requirements for the program. However, the curriculum is targeted at the junior/senior level of programs at accredited colleges and universities.

(The CEBS program is co-sponsored by the International Foundation of Employee Benefit Plans and the Wharton School of the University of Pennsylvania.)

Purchasing Agents

Purchasing agents in the agriculture sector make purchases that may include farm products for further processing or resale. They purchase merchandise or commodities for resale to consumers at the wholesale or retail level, including both durable and non-durable goods. Agents analyze past buying trends, sales records, price, and quality of merchandise to determine value and yield. They select, order, and authorize payment for merchandise according to contractual agreements. Purchasing agents may conduct meetings with sales personnel and introduce new products. They also purchase machinery, equipment, tools, parts, supplies, or services for the necessary operation of an establishment. Agents also purchase raw or semi-finished materials for manufacturing.

National certification is available for purchasing practitioners.

Requirements

- High school diploma, 12 college credits in purchasing or 96 contact hours in purchasing seminars, 5 total years purchasing experience with 3 years in public purchasing, and pass written exam, OR
- Associate degree, 6 college credits in purchasing or 56 contact hours in purchasing seminars, 3 total years purchasing experience, and pass written exam, OR
- Bachelor's degree, 6 college credits in purchasing or 72 contact hours in purchasing seminars, 5 total years purchasing experience, and pass written exam, OR
- Advanced degree (master's or Ph.D.), 3 college credits in purchasing or 24 contact hours in purchasing seminars, 2 total years purchasing experience, and pass written exam

Computer Programmers

Computer programmers convert project specifications and statements of problems and procedures to detailed logical flow charts for coding into computer language. They develop and write computer programs to store, locate, and retrieve specific documents, data, and information. They may also program websites.

International certification is available for computer professionals.

**Requirements**

**Applicant requirements for Associate Computing Professional (ACP):**
- Pass the core exam and one specialty exam 50% or higher

**Applicant requirements for Certified Computing Professional (CCP):**
- Pass the core exam and two specialty exams
- 48 months of full-time work experience in computer-based information systems (up to 24 months of this experience may be substituted by postsecondary academic work)

**Certifying Agency**

**Institute for Certification of Computing Professionals (ICCP)**
244 S Randall Road
Suite 116
Elgin, IL 60123
(847) 299-4227
office2@iccp.org
[http://iccp.org](http://iccp.org)

**Fees**

**Testing:**
- Practitioner/Mastery level: $299.00 per exam
- Associate level: Exam $250.00
- Exam & Programming language: $299.00 + $189.00
- Exam & Specialty: $299.00 + $299.00
- Associate BDMP
- Foundations exam (3) $250.00 each

**Examination**

**Type:** Computerized
**When:** Set up individual dates with a proctor
**Where:** A location convenient to the proctor and examinee

# Drafters

Architectural and civil drafters prepare detailed drawings of architectural and structural features of buildings or drawings and topographical relief maps used in civil engineering projects, such as highways, bridges, and public works. They utilize knowledge of building materials, engineering practices, and mathematics to complete drawings.

Electrical and electronics drafters prepare wiring diagrams, circuit board assembly diagrams, and layout drawings used to manufacture, installation, and repair electrical equipment in factories, power plants, and buildings.

Mechanical drafters prepare detailed working diagrams of machinery and mechanical devices, including dimensions, fastening methods, and other engineering information.

**National certification is available for drafters.**

## Requirements

- Certified Apprentice Drafter (AD) - High school/vocational training or entry level on-the-job experience
- Certified Drafter (CD) - Advanced high school/vocational training with at least 2 years experience
- Pass exam in either mechanical or architectural drafting, at either the Certified Apprentice Drafter (AD) or Certified Drafter (CD) level

## Certifying Agency

**American Design Drafting Association**

230 East Main Street  
2nd Floor  
Newbern, TN 38059  
(731) 627-0802  
(731) 627-9321 Fax

Electrical and Electronics Engineering Technicians

Electrical and electronics engineering technicians apply theory and related knowledge, usually under the direction of engineering staff, to design, build, repair, calibrate, and modify electrical components, circuitry, controls, and machinery for subsequent evaluation and use by engineering staff in making engineering design decisions.

National certification is available for electrical and electronics engineering technicians.

Requirements

- Relevant technician-level work experience
- Supervisor verification of on-the-job performance
- Personal recommendation (required at upper levels of certification)
- Written exam based on typical job tasks

Certifying Agency

National Institute for Certification in Engineering Technologies
1420 King Street
Alexandria, VA 22314
(888) 476-4238
cert@nicet.org
http://www.nicet.org

Fees

Recertification: $185.00 for one certification
$50.00 for each additional subfield (every 3 years)
Testing: Fee varies depending on test level and type

Examination

Repeats: Unlimited
Type: Written/Computerized
When: See www.pearsonvue.com
Where: Pearson VUE sites throughout the country

SOC: Electrical and Electronic Engineering Technicians-17-3023
ONET: Electrical and Electronic Engineering Technicians-17-3023.00
Electrical and Electronics Engineers

Electrical engineers design, develop, test, or supervise the manufacturing and installation of electrical equipment, components, or systems for commercial, industrial, military, or scientific use.

Electronics engineers research, design, develop, and test electronic components and systems for commercial, industrial, military, or scientific use utilizing knowledge of electronic theory and materials properties. They also design electronic circuits and components for use in fields such as telecommunications, aerospace guidance and propulsion control, acoustics, or instruments and controls.

Engineers must be certified to practice professional engineering in Georgia.

Requirements

- Four-year degree in engineering, engineering technology or related science from an accredited program OR 4 years approved experience in engineering
- 4 year engineering technology program, 4 year study in a related science: engineering, graduate study in engineering, teaching engineering, and engineering experience
- Pass the fundamental of engineering exam (Required for an engineer-in-training certificate)
- Pass a written exam in the principles and practice of engineering (Required for a professional engineer certificate)
- Pass the engineering exam(s): 8 hours Fundamental of Engineering exam and the 8 hours Principles and Practice exam

Engineering Technicians

Aerospace engineering technicians operate, install, calibrate, and maintain integrated computer/communications systems consoles, simulators, and other data acquisition, test, and measurement instruments and equipment to launch, track, position, and evaluate air and space vehicles. They may also record and interpret test data.

Civil engineering technicians apply theory and principles of civil engineering in planning, designing, and overseeing construction and maintenance of structures and facilities under the direction of engineering staff or physical scientists.

Electrical and electronic engineering technicians apply electrical and electronic theory and related knowledge. Usually under the direction of an engineering staff, they design, build, repair, calibrate, and modify electrical components, circuitry, controls, and machinery for subsequent evaluation and use by engineering staff in making engineering design decisions.

Environmental engineering technicians apply theory and principles of environmental engineering to modify, test, and operate equipment and devices used in the prevention, control, and remediation of environmental pollution, including waste treatment and site remediation. They may also assist in the development of environmental pollution remediation devices under direction of engineer.

Industrial engineering technicians apply engineering theory and principles to problems of industrial layout or manufacturing production, usually under the direction of engineering staff. They may also study and record time, motion, method, and speed involved in performance of production, maintenance, clerical, and other worker operations for such purposes as establishing standard production rates or improving efficiency.

Mechanical engineering technicians apply theory and principles of mechanical engineering to modify, develop, and test machinery and equipment under the direction of an engineering staff or physical scientists.

National certification is available for engineering technicians.

Mining Engineers

Mining engineers determine the location and plan the extraction of coal, metallic ores, nonmetallic minerals, and building materials, such as stone and gravel. Their work involves conducting preliminary surveys of deposits or undeveloped mines and planning their development; examining deposits or mines to determine whether they can be worked at a profit; making geological and topographical surveys; evolving methods of mining best suited to character, type, and size of deposits; and supervising mining operations.

Engineers must be certified to practice professional engineering in Georgia.

Requirements

- Four-year degree in engineering, engineering technology or related science from an accredited program OR 4 years approved experience in engineering
- 4 year engineering technology program, 4 year study in a related science: engineering, graduate study in engineering, teaching engineering, and engineering experience
- Pass the fundamental of engineering exam (For an engineer-in-training certificate)

Safety Engineers

Safety engineers promote worksite or product safety by applying knowledge of industrial processes, mechanics, chemistry, psychology, and industrial health and safety laws. They include industrial product safety engineers.

Engineers must be certified to practice professional engineering in Georgia.

Requirements

- Four-year degree in engineering, engineering technology or related science from an accredited program OR 4 years approved experience in engineering OR
- 4 year engineering technology program, 4 year study in a related science: engineering, graduate study in engineering, teaching engineering, and engineering experience
- Pass the fundamental of engineering exam (Required for an engineer-in-training certificate)
  Pass a written exam in the principles and practice of engineering (Required for a professional engineer certificate)
- Pass the engineering exam(s): 8 hours Fundamental of Engineering exam and the 8 hours Principles and Practice exam

Surveying and Mapping Technicians

Surveying and mapping technicians perform surveying and mapping duties, usually under the direction of a surveyor, cartographer, or photogrammetrist to obtain data used for construction, mapmaking, boundary location, mining, or other purposes. They may calculate mapmaking information and create maps from source data, such as surveying notes, aerial photography, satellite data, or other maps to show topographical features, political boundaries, and other features. They may also verify accuracy and completeness of topographical maps.

Land surveyors must be certified in Georgia.

### Requirements

**Applicant requirements for a land surveyor-in-training certificate:**
- Applicants with high school diploma or equivalent can take the Land Surveyor-in-Training (LSIT) exam if they meet the minimum education requirement
- Hold bachelor's degree in Land Surveying or any approved related field of study and are qualified for the LSIT exam without experience
- Pass the LSIT exam

**Applicant requirements for a land surveyor certificate:**
- High school diploma or equivalent, and a minimum of 4 years of approved experience in addition to the experience required for a land surveyor-in-training
- Hold a bachelor's degree with minimum of 4 years combined field and office experience
- Obtain certification as a land surveyor-in-training (Pass the LSIT exam)
- Pass the Georgia land surveying exam
- Obtain a minimum of 15 quarter hours (9 semester hours) in land survey subjects and 5 quarter hours (3 semester) in hydrology

Agricultural Scientists

Agricultural scientists conduct research in breeding, physiology, production yield, and management of crops and agricultural plants, their growth in soils, and control of pests; or study the chemical, physical, biological, and mineralogical composition of soils as they relate to plant or crop growth. They may classify and map soils and investigate effects of alternative practices on soil and crop productivity. Food scientists use chemistry, microbiology, engineering, and other sciences to study the principles underlying the processing and deterioration of foods.

National certification is available for certified crop advisers, agronomists, and soil scientists.

Requirements

Applicant requirements for certified crop adviser (CCA):
- Have at least 2 years of experience with at least a Bachelor of Science degree in agriculture or 4 years of experience with no degree
- Pass the international and local board exams

Applicant requirements for certified professional soil scientist:
- Have at least 5 years of experience with at least a Bachelor of Science Degree majoring in soil science or 3 years of experience with an M.S. or Ph.D.
- Pass the fundamentals and professional practice exams

Applicant requirements for certified professional agronomist:
- Pass one comprehensive exam
- Have at least 5 years of experience with a Bachelor of Science degree in agronomy or closely allied field OR 3 years of experience with an M.S. degree OR 1 year of experience with a Ph.D.

Foresters

Foresters manage forested lands for economic, recreational, and conservation purposes. This occupation may inventory the type, amount, and location of standing timber, appraise the timber's worth, negotiate the purchase, and draw up contracts for procurement. Foresters may determine how to conserve wildlife habitats, creek beds, water quality, and soil stability, and how bests to comply with environmental regulations. They may devise plans for planting and growing new trees, monitor trees for healthy growth, and determine the best time for harvesting. This position may also develop forest management plans for public and privately owned forested lands.

Foresters must be licensed in Georgia.

Requirements

- Earn a bachelor degree or master from a SAF-accredited degree program
  OR
- Earn a bachelor degree or higher in forestry or related natural resources; degree must have 56 semester hours in a forestry-related course work
- 5 years or more experience in verifiable professional forestry work within the last 10 years
- Pass a written exam

Geologists and Geophysicists

Geologists and geophysicists study composition, structure, and history of the earth’s crust; examine rocks, minerals, and fossil remains to identify and determine the sequence of processes affecting the development of the earth; apply knowledge of chemistry, physics, biology, and mathematics to explain these phenomena and to help locate mineral and petroleum deposits and underground water resources; prepare geologic reports and maps; and interpret research data to recommend further action for study.

Geologists and geophysicists must be registered to practice in Georgia.

Requirements

- Good ethical character
- Have graduated from an accredited college or university which has been approved by the board with a major in either geology, engineering geology, or geological engineering;
  OR
  Have completed 45 quarter hours or the equivalent in geological science courses leading to a major in geology, of which at least 36 quarter hours or the equivalent were taken in the third or fourth year or in graduate courses
- Seven years with a minimum of 3 years of experience under registered geologist supervision or other, as board would accept. Each year of undergraduate study counts as one-half year experience, not to exceed two years
- Pass the Association of State Boards of Geology (ASBOG) National exam

Marriage and Family Therapists

Marriage and family therapists provide individual, marriage, and family counseling to adults and children to assist clients to identify personal and interactive problems, and to achieve effective personal, marital, and family development and adjustment. They collect information about clients using interview, case history, and observation techniques, and appraisal and assessment methods. Therapists analyze collected information to identify problems and concerns, and consults reference material such as text books, manuals, and journals to identify symptoms, make diagnosis, and develop therapeutic or treatment plan. They may make use of counseling methods and procedures such as psychotherapy and hypnosis to assist clients in gaining insight into personal and interactive problems, or make referrals to specialists in the clients’ area of need.

Marriage and family therapists must be licensed in the state of Georgia.

Requirements

- Master’s degree from an accredited program or post-master’s experience or doctorate degree from an accredited program
- 2 years full-time post-master experience or equivalent under supervision
- Have at least 100 hours of supervision with approved experience
- Pass national exam (National Marital and Family Therapy (MFT) Examination)

Social Workers, Clinical

Social workers assist patients and their families with personal and environmental difficulties that predispose illness or interfere with obtaining maximum benefits from medical care. They work in close collaboration with physicians and other health care personnel in patient evaluation and treatment to further their understanding of significant social and emotional factors underlying patient's health problems. They help patient and family through individual or group conferences to understand, accept, and follow medical recommendations. They may also provide psychiatric social work assistance to mentally or emotionally disturbed patients of hospitals, clinics, and other medical centers, and their families collaborating with psychiatric and allied teams in diagnosis and treatment plans. They help patients to respond constructively to treatment and assist in adjustment leading to and following discharge.

Social workers must be licensed to practice clinical social work in Georgia.

Requirements

- Master's degree in social work and 3 years full-time supervised experience
- Or
  Master's degree in social work and holds a doctoral degree in Professional Counseling; Social Work; Marriage and Family Therapy; Medicine; Psychiatric Nursing; Applied Psychology; Pastoral Counseling; or Applied Child and Family Development and 2 years full-time post master's degree experience
- Pass a written exam

Social Workers, Non-clinical

Social workers provide assistance to individuals, families, and groups in a wide range of areas. They assist with the application for government programs, assist parents with child rearing problems, check to ensure that children receive fundamental care, help to resolve domestic difficulties, help with the social development of individuals, and work to prevent juvenile delinquency. Social workers assist medical patients and their families with difficulties that predispose illness or interfere with obtaining maximum benefits from medical care. They collaborate with physicians and other health care personnel in patient evaluation and treatment, help patients and families through individual or group conferences to accept, understand, and follow medical recommendations, and provide assistance to mentally or emotionally disturbed patients and their families in medical facilities. They provide casework for inmates in correctional facilities by interviewing inmates and conferring with attorneys, judges, and probation officers. They compile social histories reflecting such factors as the nature and extent of an inmate's criminality, analyzes collected data to develop and initiate treatment plans, evaluates inmates progress and reports and makes recommendations to parole officials.

Emergency Medical Technicians

Emergency medical technicians administer first-aid treatment to and transport sick or injured persons to medical facilities, working as a member of an emergency medical team. Technicians respond to instructions from an emergency medical dispatcher and drive specially equipped emergency vehicle to specified locations. They remove or assist in removal of victims from the scene of an accident or catastrophe and determine the nature and extent of illness or injury to establish first-aid procedures to be followed or need for additional assistance. They communicate with professional medical personnel at emergency treatment facilities to obtain instructions regarding further treatment and to arrange the reception of victims at treatment facility. They also help transfer victims from vehicle to treatment facility and assist with admitting personnel to obtain and record information related to victims' vital statistics and circumstance of emergency.

Emergency medical technicians (EMT's) must be certified in Georgia.

Requirements

Applicant requirements for EMT-Intermediate/85:
- Successfully complete within the last 2 years a state approved EMT-Intermediate/85 training program
- All of the requirements for EMT-Basic plus pass the National Registry written and practical exam
- Pass a national written and practical exam

Applicant requirements for EMT-Basic:
- 18 years of age
- High school diploma or equivalent
- Successfully completed the state approved EMT psychomotor and cognitive exam
- Current CPR credentials
- Successfully complete within the last 2 years a state approved EMT-Basic training program
- Pass a state approved EMT-Basic practical exam

Applicant requirements for Paramedic:
- All of the requirements for EMT-Basic plus current national registration or state certification at the EMT-Basic, EMT-Intermediate/85, or EMT-Intermediate/99 level; successfully complete, within the last 2 years, a state approved EMT-Paramedic training program

Applicant requirements for EMT-Intermediate/99:
- All of the requirements for EMT-Basic plus current national registration or state certification at the EMT-Basic or EMT-Intermediate/85 level; successfully complete within the last 2 years a state approved EMT-Intermediate/99 training program; pass a national written and practical exam

Nurse Practitioners

Nurse practitioners provide general medical care and treatment to patients in medical facilities such as clinics, health centers, or public health agencies under the direction of a physician. They perform physical examinations and preventive care measures within prescribed guidelines and instruction of the physician. They order, interpret, and evaluate diagnostic tests to identify and assess patient's clinical problems and health care needs as well as record physical findings and formulate plans and prognosis based on patient's condition. They may refer patients to physicians for consultation or to specialized health resources for treatment.

Nurse practitioners must be licensed as a registered nurse in Georgia and authorized by the Georgia Board of Nursing as an advanced practice registered nurse.

Requirements

- Pass exam
- Complete an approved masters or post-masters level adult and family nurse practitioner program
- Be a registered nurse in Georgia
- Be authorized by the Georgia Board of Nursing as an APRN
- Complete a master's degree or higher in nursing for respective nurse practitioner specialty
- Pass the National Certification Exam offered by the American Academy of Nurse Practitioners (AANP)

Occupational Therapists

Occupational therapists help people with physical, emotional, and mental disabilities learn to perform the tasks of daily living. They direct educational, vocational, and recreational activities. Duties may include helping patients regain physical, mental, and emotional stability, and helping them relearn daily routines such as dressing and cooking.

Occupational therapists must be licensed in Georgia.

Requirements

- Good moral character
- Successfully complete the academic requirements of an educational program in occupational therapy recognized by the board, with a concentration in biological or physical science, psychology, and sociology, and with education in selected manual skills
- Six months completed supervised fieldwork experience
- Three references required by the board, two of which must be from certified or licensed occupational therapists who have knowledge of the applicant's professional training or experience
- Pass a written exam

Licensing Agency

**Georgia State Board of Occupational Therapy**

Radiation Therapists

Radiation therapists provide radiation therapy to patients as prescribed by a radiologist according to established practices and standards. Their duties may include reviewing prescription and diagnosis; acting as a liaison with physician and supportive care personnel; preparing equipment, such as immobilization, treatment, and protection devices; and maintaining records, reports, and files. They may assist in dosimetry procedures and tumor localization.

National certification is available for radiation therapists.

### Requirements

- Graduate from an accredited radiation therapy program
- Meet ethical requirements
- Pass exam

Radiologic Technologists

Radiologic technologists take X-rays and CAT scans or administer nonradioactive materials into patient's blood stream for diagnostic purposes. This includes technologists who specialize in other modalities, such as computed tomography and magnetic resonance. This also includes workers whose primary duties are to demonstrate portions of the human body on X-ray film or fluoroscopic screen.

Certification is optional in Georgia for radiologic technologists.

### Requirements

- Graduate from an accredited radiology program
- Meet ethical requirements
- Pass exam

Medical Assistants

Medical assistants perform administrative and certain clinical duties under the direction of a physician. Their administrative duties may include scheduling appointments, maintaining medical records, billing, and coding for insurance purposes. Their clinical duties may include taking and recoding vital signs and medical histories, preparing patients for examination, drawing blood, and administering medications as directed by a physician.

National certification is available for medical assistants.

Requirements

Note:
- The certification process varies by association. Please review the requirements and process of each association.

Registered Medical Assistant (RMA)
- A recent graduate of, or scheduled to graduate from:
  - A medical assistant program in a post-secondary school or college that has institutional accreditation by the U.S. Department of Education, which programs includes a minimum of 720 clock-hours (or equivalent of training) in medical assisting skills
  OR
- Employed in the profession of medical assisting for a minimum of 5 years
- Pass a generalist medical assistant certification examination (approved by the AMT Board)

Certified Medical Assistant (CMA)
- Graduate from an accredited medical assistant program approved by the Department of Education (DOE)
  OR
- Graduated from an accredited military medical service training program
- Have worked as a medical assistant 5 years out of the last 7 years
  OR
- Have currently instructed in an accredited medical assistant program; must have at least 5 years teaching experience

Medical Transcriptionists

Medical transcriptionists use transcribing machines with headset and foot pedal to listen to recordings by physicians and other healthcare professionals dictating a variety of medical reports, such as emergency room visits, diagnostic imaging studies, operations, chart reviews, and final summaries. They transcribe dictated reports and translate medical jargon and abbreviations into their expanded forms. They also edit as necessary and return reports in either printed or electronic form to the dictator for review and signature, or correction.

Certification is available for medical transcriptionists.

Requirements

Certified Healthcare Documentation Specialist (CHDS)
- Pass CMT exam
- Registered medical transcriptionists (RMTs) with a minimum of 2 years’ experience in acute-care transcription or multispecialty equivalent.

Registered Healthcare Documentation Specialist (RHDS)
- Recent graduates of medical transcription education programs, OR
- Healthcare documentation practitioner for less than 2 years of experience OR
- Experienced practitioner in a specialized environment.
- Pass RHDS Exam

Nail Technicians

Nail technicians are personal-appearance workers who do manicures and pedicures. First, they check clients' nails for signs of skin or nail diseases. Then they file and polish clients' natural nails, as well as apply, repair and decorate artificial acrylic and gel nails. They give foot baths and hand baths, foot and hand massages, use pumice stones to smooth away tough calluses, and apply moisturizing oils and lotions.

A certificate of registration is required to practice cosmetology at the nail technician level.

Requirements

Used motor vehicle parts dealers sell used automotive parts and equipment by ascertaining the make, year, and type of part needed. They inspect worn, damaged, or defective parts to determine necessary replacement or advises the customer of part needed based on the description of the malfunction. They may also purchase wrecked vehicles to salvage parts.

**Used motor vehicle parts dealers must be registered in Georgia.**

**Requirements**

- Provide a surety bond of $10,000.00
- Provide an original certificate of insurance
- Provide proof of an established place of business
- Provide recent photograph
- Provide sales tax number
- Fingerprint criminal background check

**Certifying Agency**

**Georgia State Board of Registration of Used Motor Vehicle Dealers and Used Motor Vehicle Parts Dealers**

Executive Secretaries

Executive secretaries provide high-level administrative support by conducting research, preparing statistical reports, handling information requests, and performing clerical functions such as preparing correspondence, receiving visitors, arranging conference calls, and scheduling meetings. They may also train and supervise lower-level clerical staff.

International certification is available as a Certified Professional Secretary (CPS) and Certified Administrative Professional (CAP).

Requirements

- Two to four years of work experience as an administrative professional, varying according to your level of college education (students or teachers in a college business education program also may qualify for the CAP)
- Pass the CAP exam

Certifying Agency

**International Association of Administrative Professionals**
10502 N. Ambassador Dr
Suite 100
Kansas City, MO 64153

### Electrical and Low Voltage System Contractors

Electrical and low voltage system contractors are responsible for installing, maintaining, altering, or repairing electrical systems. Electricians under their direction inspect and service electronic control devices, follow blueprints, bend and fasten tubing inside walls, and pull wires through the tubing to complete the circuits between outlets and switches. They connect the wiring to circuit breakers, transformers, and other components. Low voltage contracting involves the installation, alteration, service, or repair of a telecommunication system, alarm system, or general system involving low-voltage wiring.

**Electrical contractors and low voltage contractors must be licensed in Georgia.**

### Requirements

**Applicant requirements for a general, alarm, telecommunications, or unrestricted low voltage contractor license:**
- 1 year of approved experience in low-voltage wiring (for alarm license, applicant must have experience with installation or alarm systems. For telecommunication license, applicant must have experience with installation of telecommunication systems) under a licensed contractor.
- Pass an exam

**Applicant requirements for restricted or non-restricted electrical contractors license:**
- 4 years of approved experience in the electrical field under a licensed contractor (for a non-restricted license, applicant must have experience with installations in excess of single phase, 200 amperes systems)
- 21 years of age
- Pass an exam
- 3 letters of references (using board reference form)

**Appropriate education:** A diploma in Engineering Technology or certificate from an accredited Vocational-Technology school program.

### Licensing Agency

Hazardous Material Workers

Hazardous material workers identify, remove, pack, transport, or dispose of hazardous materials, including asbestos, lead-based paint, waste oil, fuel, transmission fluid, radioactive materials, contaminated soil, etc. They specialized training and certification in hazardous materials handling or a confined entry permit are generally required. They may also operate earth-moving equipment or trucks.

The federal government requires asbestos and lead abatement workers to be licensed.

Requirements

- Must complete a 30 to 40 hours training program in order to become licensed to work with hazardous material (See Agency website). Workers who handle nuclear waste must complete 6 months of field work to qualify for a license.
- Pass written exam

Computer Equipment Repairers

Computer equipment repairers work on computers, monitors, printers, network hubs, and related equipment. When computers need attention, repairers first talk to users to find out what is wrong. Then repairers try to operate the computers. Depending on what they find, repairers may focus first on problems with the hardware (the physical parts of the computer) or software (the programs). To test the electrical or mechanical systems, repairers use special equipment such as voltmeters. Repairers must take computers apart to run these tests.

National certification is available for computer equipment repairers.

Requirements

Applicant requirements for journeyman level certification:
- 4 or more years of education and/or experience in electronics
- Pass the Associate Level Electronics exam
- Pass the computer Journeyman Level CET exam

Bakers

Bakers mix and bake ingredients according to recipes to produce breads, rolls, cookies, cakes, pies, pastries, or other baked goods.

National certification is available for bakers.

Requirements

Applicant requirements for a Certified Journey Baker (CJB):
- One year (2,000 hours) of commercial/retail baking work experience or a minimum of one year combination of education and commercial/retail baking work experience of which 1,000 hours must be work experience
- Pass a written exam

Applicant requirements for a Certified Baker (CB):
- 4 years of full-time commercial/retail baking work experience or a CJB plus 3 years of full-time commercial/retail baking work experience
- Possess a valid ServSafe certification or complete a 30-hour sanitation course offered by a school, government agency, or association
- Pass a written exam
- Pass a one-day practical test

Applicant requirements for a Certified Decorator (CD):
- Pass a one-day practical test
- Possess a valid ServSafe certification or complete a 30-hour sanitation course offered by a school, government agency, or association
- 4 years of decorating experience working in a commercial/retail bakery

Applicant requirements for a Certified Master Baker (CMB):
- Pass a written exam
- Possess a valid ServSafe certification or complete a 30-hour sanitation course offered by a school, government agency, or association
- 30 contact hours of professional development courses/seminars/workshops in supervision or bakery management and production
- 4 years of full-time commercial/retail baking work experience
- Pass a two-day practical baking test

Medical Appliance Technicians

Medical appliance technicians construct, fit, maintain, or repair medical supportive devices, such as braces, artificial limbs, joints, arch supports, and other surgical and medical appliances.

The following credentialing options are available: practitioner certification, technician registration, and orthotic and mastectomy fitter registration.

Requirements

**Applicant requirements for Technician Registration:**
- Complete an NCOPE accredited orthotic and/or prosthetic technician program OR two years of technician experience in the discipline seeking registration under the direct supervision of an ABC certified practitioner
- Pass exam

**Applicant requirements for Practitioner Certification:**
- Bachelor's degree in orthotics and prosthetics or bachelor's degree in any major and an orthotics or prosthetics certificate from a CAAHEP accredited program
- Pass exam
- Complete a 12-month NCOPE accredited residency program

**Applicant requirements for Orthotic Fitter**
- Orthotic Fitter must complete 1,000 hours of orthotic fitting experience
- Successfully complete an ABC approved fitter education seminar, including all course requirements necessary to receive a certificate of completion
- Pass exam

**Applicant requirements for Mastectomy Fitter:**
- Pass exam
- Mastectomy Fitter must complete 500 hours of mastectomy fitting experience
- Successfully complete an ABC approved fitter education seminar, including all course requirements necessary to receive a certificate of completion

Airplane Pilots

Aircraft pilots and flight engineers work together in the transportation of passengers and cargo. Pilots operate the flight controls, supervise the crew and perform other task essential for safe operation of the aircraft. Flight engineers are also certified by the FAA. However, they may or may not be qualified pilots. Flight engineers monitor various aircraft systems during aircraft operation. Pilots work in various capacities such as airline pilots, flight instructors, emergency medical pilots, and agricultural spraying.

All pilots who are paid to transport passengers or cargo must have a commercial pilot's license.

Requirements

Applicants for an airline transport pilot's license must meet the following requirements in addition to the requirements listed above:

- Minimum of 1,500 hours of flight experience (500 hours cross-country; 100 hours night time or 75 hours plus 45 night stop landing; 75 hours instrument flight time or 50 flight and 25 simulators)
- At least 23 years old
- Must hold at least a commercial pilot (U.S. certification) with an instrument rating OR
  Hold an ATP or commercial pilot (ICAO country certification) with an instrument rating without limitation
- Subject to background check

Applicant requirements for a commercial pilot's license:

- At least 18 years old
- At least 250 hours of flight experience
- At least hold a current 3rd class FAA medical certification
- Hold an instrument rating
- Receive and log ground training from an authorized instructor or completion of a home-study course
- Pass a knowledge test
- Demonstrate flying abilities to FAA inspector or designated pilot examiner

Deckhands

Deckhands stand watch to look for obstructions in path of vessel, measure water depth, turn wheel on bridge, or use emergency equipment as directed by captain, mate, or pilot. They break out, rig, overhaul, and store cargo-handling gear, stationary rigging, and running gear. They perform a variety of maintenance tasks to preserve the painted surface of the ship and to maintain line and ship equipment. Must hold government-issued certification and tankerman certification when working aboard liquid-carrying vessels.

There are two levels of this certificate, qualified or unqualified. The unqualified rating is an entry-level rating for ordinary seamen with no prior experience or sea experience. Qualified is the rating for able seamen with some sea service experience.

**Deckhands must hold a Merchant Mariner’s Document (MMD), which is available at U.S. Coast Guard regional offices.**

### Requirements

**General Requirements**

- Be at least 16 years of age
- Have parental approval if less than 18 years old
- Be a citizen of the United States
- Pass a drug screening test
- Complete a criminal background check
- Complete a basic shipboard safety and survival training
- Attend or hold a first aid certification
- High school diploma or equivalent

**Able seamen must also meet the following requirements:**

- Complete a written exam
- Pass a physical and vision exam
- Spend a certain number of hours working on water craft
- 18 years old
- General MMC is required
- Must have a valid USCG issued by the Merchant Mariner's Document

Locomotive Engineers

Locomotive engineers drive electric, diesel-electric, steam, or gas-turbine-electric locomotives to transport passengers or freight. They interpret train orders, electronic or manual signals, and railroad rules and regulations.

Certification is required to work as a locomotive engineer on the general system of rail transportation in the United States.

Requirements

- The Federal Railroad Administration has delegated the responsibility of certifying engineers to the individual railroads who hire them. The railroads are required to follow Federal guidelines when performing the certification process.

Certifying Agency

Federal Railroad Administration
U.S. Department of Transportation
1200 New Jersey Avenue, SE
Washington, DC 20590
(202) 366-4000
https://railroads.dot.gov/

Professional Associations

FRA Region 3 Office - Atlanta
61 Forsyth Street, SW, Suite 16T20
Atlanta, GA 30303
(404) 562-3800
(404) 562-3830 Fax

School Bus Drivers

School bus drivers provide transportation for students between stops along established routes and school, following definite time schedules. They may also transport students and faculty to special events.

School bus drivers must be licensed in Georgia.

Requirements

- Pass the general knowledge tests for obtaining a CDL (commercial driver's license) License
- Pass the knowledge test for "Passenger" vehicle endorsement
- Pass the knowledge test for "School Bus" endorsement
- Pass a driving skills test in a school bus of the same vehicle group, as the school bus applicant will drive
- Complete the Highway Watch safety and security program
- Good health
- Georgia resident

Certifying Agency

Georgia Department of Driver Services
Commercial Driver's License Unit
P.O. Box 80447
2206 East View Parkway
Conyers, GA 30013
(678) 413-8400
https://dds.georgia.gov/

Fees

| Application: | $35.00, none for public school bus drivers (CDL) |
| License: | $20.00 (CDL - Class A and B) |
| Testing: | $50.00 |

Examination

| Repeats: | Unlimited |
| Type: | Written and driving |
| When: | Tuesday - Saturday (written) |
| Where: | Driving test by appointment only at 6784138400 |

Driving:  Albany, Between, Brunswick, Cumming, Dalton, Gainesville, Jackson, Milledgeville, and Thomson

Ship Engineers

Ship engineers supervise and coordinate activities of the crew in operating and maintaining propulsion engines and other engines such as boilers, deck machinery, and electrical, refrigeration and sanitary equipment aboard ships. They perform inspections and order crew to make necessary repairs and as well as start engines to propel the ship and regulate engines and power transmission to control speed of ship. They stand engine room watch during specified periods observing that required water levels are maintained in boilers, condensers, and evaporators, load on generators is within acceptable limits and oil and grease cups are kept full. They also repair machinery using hand tools and power tools and maintain engineering logs and bell books.

Ship engineers must be issued an engineering officer’s license by the U.S. Coast Guard. There are different requirements depending on the position and type of craft.

**Requirements**

Applicant requirements for an engineering officer’s license:
- Graduate from the U.S. Merchant Marine Academy or state academy
- Pass a written exam
- Pass a physical exam, vision exam, and drug-screening test (obtain medical certification of excellent health)
- Be a U.S. citizen or hold a green card
- Hold certificates in first aid and Certified Pulmonary Resuscitation (CPR)
- 3 years of watercraft/sea experience
- Pass the U.S. Merchant Mariner's license from the U.S. Coast Guard
- In order to become a third mate or third assistant, hold a degree from an accredited program in nautical science or marine engineering

**Certifying Agency**

United States Coast Guard National Maritime Center  
Licensing and Evaluation Branch  
100 Forbes Drive  
Martinsburg, VA 25404  
(888) 427-5662  
(304) 433-3409 Fax
